

## PRESS RELEASE

Tuesday, 22 June 2010

FOR IMMEDIATE RELEASE

### **ADVETO expand into Australia and Oceania**

**ADVETO** and **Australian Maritime Systems Ltd (AMS)** have entered into an agreement giving ADVETO sales and service coverage in and around Australia. ADVETO is expanding its presence throughout the globe by partnering with well known, reliable companies within the field of Marine Equipment and Services. This is a direct consequence of the rapid growth of ADVETO's ECDIS-4000 users.

"In addition to the IMO specified functionalities ADVETO's ECDIS-4000 as well as their VTS offers some unique and very competitive innovative features that fits well into AMS offer and our strive for Service Excellence through Innovation" says Brian Johnson, Marketing Director of AMS. "The online ordering and download of ENC over internet directly from the ECDIS is one such innovative feature that will attract safety conscious users."

"We couldn't have found a better partner than AMS with its service centres covering all important cities and ports of Australia" says Magnus Karlsson, Marketing Manager of ADVETO. "Australia is one of the most dense populated Fast Ferry regions in the world and with the IMO mandate to use type approved ECDIS we expect to see a continues growth of our ECDIS-4000 users"

### **ADVETO**

ADVETO Advanced Technology AB has been in the Electronic Navigation branch since the mid 1980's. Adveto systems are used all across the world in and around all continents by work boats, tow boats, ferries and ocean-crossing cruise-liners, pilot boats, and training ships. They have become increasingly popular onboard High Speed Crafts and especially with those operating in archipelagos. The majority of our users are still found in Scandinavia but with a rapidly growing number of users around the world. In addition to the National Maritime Administrations in Sweden, Norway and Denmark, the corresponding bodies in
